

Nimuthu Lakdina

Software Engineer

Profile

Second-year Software Engineering student with hands-on experience in full-stack web and mobile application development. Skilled in building scalable applications using modern technologies such as Node.js, React, Flutter, and cloud-based backend services like Firebase and Supabase.

Experienced in REST API development, database design, and deployment using platforms like Render. Passionate about developing user-friendly, high-performance applications and continuously learning new technologies. Seeking an internship to apply technical expertise in real-world projects and grow as a software engineer.

Education

- **BEng Software Engineering FT (IIT Sri Lanka)** (Ongoing)
University Of Westminster
- **GCE Advanced Level (A/L)**
St. Joseph Vaz College, Wennappuwa
Year Completed: 2023
Subjects: Combined Mathematics, Physics, Chemistry
- **GCE Ordinary Level (O/L)**
st. joseph vaz college, wennappuwa
Year Completed: 2020
Results: 5A, 2B, 2C (including IT(Eng), Commerce, and Art)

Projects

- **Bus Ticketing System (University Group Project)**
Led a team of 6 to design and develop a full-stack digital ticketing platform for Sri Lanka's public transport system.
 - Developed REST APIs with Node.js and Express.js, including authentication and session management
 - Integrated payment systems (PayHere, LankaQR) and managed PostgreSQL databases
 - Built web and mobile applications using React.js and React Native, with Firebase for real-time features
 - Deployed backend services using Render with CI/CD practices**Technologies:** React.js, React Native, Node.js, Express.js, PostgreSQL, Firebase, PayHere, REST APIs, Render
- **SDG Awareness Website (Team Project – 4 Members)**
Developed a responsive web application to promote awareness of UN Sustainable Development Goals.
 - Designed interactive UI using HTML, CSS, and Bootstrap
 - Implemented dynamic features using JavaScript
 - Collaborated using Git and GitHub for version control
 - Managed tasks using ClickUp in an agile workflow**Technologies:** HTML, CSS, JavaScript, Bootstrap, Git, GitHub

Contact

- 📞 074-0255989
- ✉️ lakdina1@gmail.com
- 🌐 [LinkedIn/Nimuthu Fernando](#)
- 🐙 [GitHub / nimuthu2004](#)
- 📍 562/H Klemant Road Wennappuwa

Technical Skills

- **Programming Languages:** Java, JavaScript, Python, PHP, Dart
- **Frontend Development:** HTML, CSS, React
- **Backend Development:** Node.js, Express.js, Mongoose ODM
- **Mobile Development:** Flutter, Android (Kotlin)
- **Databases:** SQL, MongoDB, Firebase, Supabase
- **Cloud & Deployment:** Render, Firebase Hosting

Backend & APIs

- Built REST APIs using Node.js and Express.js
- Worked with MongoDB using Mongoose ODM
- Tested APIs using Postman
- Designed scalable backend architectures

Soft Skills

- Problem-Solving
- Teamwork
- Time Management
- Communication
- Adaptability
- Critical Thinking

Tools & Platforms

- Git, GitHub
- Postman
- Docker
- Gradle
- Android Studio
- IntelliJ IDEA
- Visual Studio Code
- ClickUp
- Figma

Languages

- **English:** Fluent (both written and spoken)
- **Sinhala:** Native speaker

Areas of Interest

- Cloud Backend & Services
- API Development
- Databases
- Web Development
- UI/UX Design

Personal Web Development Portfolio

- **Quote Generator** – Built with HTML, CSS & JS for dynamic content display
- **Modal Popup** – Responsive popup with smooth CSS animations and event handling
- **Stopwatch App** – Functional timer with start/pause/reset using DOM & intervals
- **FAQ Accordion** – Expandable content toggles for improved UX

Traffic Data Analysis System (University Coursework)

Developed a Python-based data analysis application to process and visualize traffic datasets.

- Implemented CSV data processing and validation
- Built interactive GUI using Tkinter
- Generated real-time visualizations including histograms
- Applied object-oriented programming principles for modular design
- Analyzed traffic metrics such as vehicle counts, violations, and environmental factors

Technologies: Python, Tkinter, CSV Processing, Data Visualization, OOP

Extra-Curricular

- Represented school in volleyball (2016–2023)
- DSI Championships:
 - Under-15 — 1st Place
 - Under-19 — 1st Place
- School Championships:
 - Under-16 — 3rd Place
 - Under-18 — 1st Place
 - Under-20 — 1st Place
