

NIMUTHU LAKDINA FERNANDO

+94 74 025 5989 — lakdina1@gmail.com — LinkedIn — GitHub — Portfolio

Professional Summary

Second-year Software Engineering undergraduate at the Informatics Institute of Technology (IIT), affiliated with the University of Westminster. Experienced in full-stack web and mobile application development using React.js, Node.js, Flutter, MongoDB, Firebase, and REST APIs. Skilled in software engineering principles, database design, cloud deployment, and building scalable applications. Seeking a Software Engineering Internship to apply technical expertise in real-world projects and further develop industry experience.

Technical Skills

Programming Languages: Java, JavaScript, Python, Dart

Frontend Development: HTML5, CSS3, React.js, Bootstrap

Backend Development: Node.js, Express.js, REST APIs

Mobile Development: Flutter, Kotlin

Databases: MongoDB, SQL, Firebase, Supabase

Tools & Platforms: Git, GitHub, Docker, Postman, Render, Android Studio, IntelliJ IDEA, VS Code, Figma

Core Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP), SDLC, Agile/Scrum, Database Design, API Development

Projects

Lanka Bus – Full-Stack Transport Ticketing Platform

2025

GitHub

- Developed a full-stack transport ticketing ecosystem with a Flutter mobile application and Node.js backend services.
- Implemented JWT authentication, Firebase Phone OTP verification, and QR-based ticket validation.
- Designed REST APIs for ticket booking, route management, wallet services, and fare calculation.
- Integrated MongoDB, Firebase services, PayHere payments, and cloud deployment using Render.
- Applied scalable architecture patterns including state management, repositories, and secure local storage.

Technologies: Flutter, Dart, Node.js, Express.js, MongoDB, Firebase, JWT, PayHere, Render

Contact Manager – Full-Stack Web Application

2026

Live Demo

- Built a full-stack contact management system using React.js and Node.js.
- Developed CRUD APIs and integrated frontend-backend communication.
- Implemented responsive user interfaces and deployed the application using Render.

Technologies: React.js, Node.js, Express.js, Render

Traffic Data Analysis System

2024

GitHub

- Developed a Python-based traffic analytics application for processing and visualizing transportation datasets.
- Implemented CSV processing, data validation, and object-oriented design principles.
- Generated statistical reports and visualizations to analyze traffic patterns and vehicle activity.

Technologies: Python, Tkinter, CSV Processing, OOP

SDG Awareness Website – Team Project

2024

Live Demo

- Developed a responsive educational website promoting awareness of United Nations Sustainable Development Goals.
- Implemented interactive UI components and responsive layouts using modern web technologies.
- Collaborated using Git and GitHub within an Agile team environment.

Technologies: HTML, CSS, JavaScript, Bootstrap, Git, GitHub

Personal Portfolio Website

2026

Live Demo

- Built a production-ready SSR portfolio with TanStack Start, React 19, TypeScript, and Tailwind CSS v4; deployed on Cloudflare Workers via Nitro.
- Designed a responsive UI with shadcn/ui components, glass morphism, bento layout, floating navigation, and downloadable PDF resume.

Technologies: TanStack Start, React 19, TypeScript, Tailwind CSS v4, shadcn/ui, Nitro, Cloudflare Workers

Education

BEng (Hons) Software Engineering

2025 – Present

Informatics Institute of Technology (IIT), University of Westminster

G.C.E. Advanced Level – Mathematics Stream

2023

St. Joseph Vaz College, Wennappuwa

Combined Mathematics — Physics — Chemistry

Achievements

- Represented St. Joseph Vaz College Volleyball Team (2016–2023).
- DSI Championship Winners – Under 15 and Under 19.
- School Championship Winners – Under 18 and Under 20.
